High Quality European Tire

About Tatko Tires

With a history approaching a century, we have been the foremost observer of the Turkish tire industry for 96 years. Our mark on the sector dates back to our establishment in 1927. We take pride in our 600 dedicated employees, our diverse range of products, our partnerships with world-leading brands, and our very own brand, Tatko.

As Turkey's largest multi-brand retail tire chain, we continue to serve our customers with an extensive product portfolio through our network of 800 dealers. We stand by our customers by offering comprehensive 360° service packages comprising tire supply, uninterrupted operational support, our digital fleet solution software and retreading services, all of which constitute our Commercial Tires and Off-Road operations.

Thanks to our efficient logistics operations, we ensure a seamless tire supply to our customers through our Central Tire Base and warehouses spread across the country. Furthermore, our commitment to sustainability and environmentally friendly practices has enabled us to reuse "70 million kg of tires (70 thousand tons)" in the last 30 years, achieved through Turkey's largest retreading facilities.

Drawing on our extensive 360-degree experience in the tire industry, we branched out to introduce our own brand. Tatko brand has gained recognition in nearly 40 countries across 5 continents, spanning from Europe to Asia, North America to Africa. Tatko products conform to international standards such as DOT, ECE, INMETRO, and hold certifications such as ISO 9001, ISO 14001, ISO 45001, and ISO 27001.

In our second century, we will continue to leave our mark by adding value to our employees and business partners.

TATKO

- ④ Reduced Fuel Consumption by Maximizing the Coherence of Polymer & Silica
- ④ Safe Handling & Brake Performance
- ④ 4 Wide Grooves That Improves Water Evacuation on Wet Road
- ④ High Technology Material
- ④ Driving Stability Even at High-Speed
- ④ Low Wear & Long Milage Through High Quality Silica
- ④ All Season Performance
